

ICAS 2nd meeting – *International Congress of Anthropological Sciences*

Schedule

December 7, 2017

Institut de Paléontologie Humaine, 1 rue René Panhard, 75013 Paris

9:00-9:45: Registration

9:45-10:00: Welcome from Mr. Christophe Falguères, head of the UMR7194 *Natural History of Prehistoric Man* from CNRS

10:00-11:00: Opening conference by Pr. Yves Coppens, Collège de France, Paris
Hominoid and Hominin expansions from Africa

11:00-12:00: Session 1. From Miocene to Pleistocene

- Ayla Sevim Erol, Ankara University, Faculty of Letters, Ankara, Turkey

Alper Yener Yavuz, Mehmet Akif Ersoy University, Burdur, Turkey

The Miocene hominoids from Turkey: the Çorakyerler site

- Valérie Andrieu-Ponel, Aix-Marseille University, Avignon University, CNRS, IRD, IMBE, Marseille, France, and collaborators

The Alçigöl lake – a record of the entire Pleistocene

- Sandrine Prat, National Museum of Natural History, Paris, France – UMR 7194

The first representatives of the genus Homo

12:00-14:00: Lunch break

14:00-16:15: Special session on Kocabaş Man

14:00-14:45: Lecture by A.M. Celâl Şengör in honor of the 15th anniversary of the discovery of the Kocabaş fossil, the first *Homo erectus* discovered in Turkey

- Frank Wesselingh, National Museum of Natural History, Naturalis, Leiden, Netherlands
Paleo-ecology of two Homo erectus sites (Trinil Java and Kocabaş). Data from molluscs.
- Serdar Mayda, Izmir University, Nicolas Boulbes, Perpignan University and UMR7194, Vadim Titov, Russian Academy of Sciences, Anne-Marie Moigne, National Museum of Natural History, Paris, France – UMR 7194
Paleo-ecology of the Kocabaş hominin. Data from macromammals.
- Pierre Rochette, Anne-Elisabeth Lebatard, UMR 7330, CEREGE, Aix-Marseille, France
Dating the *Homo erectus* from Kocabaş. Paleomagnetism and cosmogenic nuclides $^{26}\text{Al}/^{10}\text{Be}$
- Amélie Vialet, National Museum of Natural History, Paris, France – UMR 7194
Mehmet Cihat Alçiçek, Pamukkale University, Denizli, Turkey
The Kocabaş hominin, Turkey, at the crossroads of Africa and Eurasia
- Dominique Grimaud-Hervé, National Museum of Natural History, Paris, France – UMR 7194
Evolution of the endocranium of the first Eurasians

16:00-16:30: Coffee break

16:30-18:00: Session 3. The technical behaviors and subsistence in the Middle East from 1.8 Ma

- Ana Mgeladze, Georgian National Museum, Free University of Tbilisi, Georgia
The ancient Paleolithic from Georgia
- Marie-Hélène Moncel, National Museum of Natural History, Paris, France – UMR 7194
Prehistoric sites from Georgia and the question of Acheulean
- Berkay Dinçer, Istanbul University, Istanbul, Turkey
The Lower Paleolithic in Turkey
- Ahmet Ihsan AYTEK, Mehmet Akif Ersoy University, Burdur, Turkey
Hakan Mutlu, Ankara University, Faculty of Letters, Ankara, Turkey
New discoveries in the Early Pleistocene of the Denizli Basin, Turkey
- Reto Jagher, IPAS, University of Basel, Basel, Switzerland
Technical evolution in the assemblages from prehistoric sites in Syria
- Stéphanie Bonilauri, National Museum of Natural History, Paris, France – UMR 7194
The Middle Paleolithic in Syria
